NBP2-80755

Glyoxalase I Antibody (Glo1a) - Azide and BSA Free

Product Information	
Unit Size	0.1 ml
Concentration	1 mg/ml
Storage	Store at -20C. Avoid freeze-thaw cycles.
Clonality	Monoclonal
Clone	Glo1a
Preservative	No Preservative
Isotype	IgG1 Kappa
Purity	Protein G purified
Buffer	Tris-Glycine, 0.15 M NaCl
Target Molecular Weight	21 kDa

Product Description	
Host	Mouse
Gene ID	2739
Gene Symbol	GLO1
Species	Human, Mouse
Immunogen	Full length human GLO1 protein [Swiss-Prot #Q04760].

Product Application Details	
Applications	Western Blot, Simple Western, ELISA, Immunocytochemistry/Immunofluorescence, Immunoprecipitation
Recommended Dilutions	Western Blot, Simple Western : 1:50, ELISA : 0.15 ng / 1 ug protein, Immunocytochemistry/Immunofluorescence : 10 ug/ml, Immunoprecipitation reported in scientific literature
Application Notes	In Western blot, a band is seen approx. 21 kDa. In Simple Western only 10 - 15 uL of the recommended dilution is used per data point. Separated by Size-Wes, Sally Sue/Peggy Sue. The observed molecular weight of the protein may vary from the listed predicted molecular weight due to post translational modifications, post translation cleavages, relative charges, and other experimental factors.

Images

Western Blot: Glyoxalase I Antibody (Glo1a) - Azide and BSA Free [NBP2-80755] - HeLa whole cell extracts. Image from the standard format of this antibody.

Immunocytochemistry/Immunofluorescence: Glyoxalase I Antibody (Glo1a) - Azide and BSA Free [NBP2-80755] - Immunostaining of human retinal endothelial cells. Immunoreactivity for hGlx-1 was detected in human retinal endothelial cells stained with Glo1a mAb using anti mouse IgG Texas Red as secondary Ab. The cells were counter stained with phalloidin (green) and DAPI (blue), nuclear stain. No reactivity was detected in control cells, stained without Go1a mAb. Figure is a representative of 3 independent experiments. Photo courtesy of Dr. Nagaraj, Case Western Reserve University. Image from the standard format of this antibody.

Western Blot: Glyoxalase I Antibody (Glo1a) - Azide and BSA Free [NBP2-80755] - Detection of GLO-1 in human cell lines. Lane 1,2 and 3: MG-63 osteosarcoma cell line (positive control), 402-91 liposarcoma cell line and 402-91 liposarcoma cell line resistant to trabectedine. This image was submitted via customer Review. Image from the standard format of this antibody.

Simple Western: Glyoxalase I Antibody (Glo1a) - Azide and BSA Free [NBP2-80755] - Simple Western lane view shows a specific band for GLO1 in 0.5 mg/ml of HeLa lysate. This experiment was performed under reducing conditions using the 12-230kDa separation system. * Non-specific interaction with the 230 kDa Simple Western standard may be seen with this antibody. Image from the standard format of this antibody.

Simple Western: Glyoxalase I Antibody (Glo1a) - Azide and BSA Free [NBP2-80755] - Simple Western lane view shows a specific band detected for GLO1 in HeLa lysate. This experiment was performed under reducing conditions using the Wes or Sally Sue separation system 12-230kDa (or 66-440kDa). Image from the standard format of this antibody.
